# What is BIE?

BioEnergetic Intolerance Elimination

**Purpose:** to identify and normalize the body to substances that the body does not properly recognize.

**Step 1:** Identification

**Step 2:** Imprinting

# How does BIE work?

## Step 1: Identification

- Muscle testing

## Step 2: Imprinting

- Patent device that directs frequencies of substances onto 16 acupuncture points (no needles)

# BIE unit

# What BIE looks like

# How do intolerances get created?

1. Under a state of stress, body is exposed to a substance
2. Negative association is made
3. Substance is now identified as “harmful”
4. Upon future exposure, body “blocks” and “rejects” substance
5. Symptoms arise
